

## Defense Leaders Of District List Faults of OCD

A list of alleged faults and flaws in jurisdictional supervision of Civilian Defense administration in this area was set out in a seven-page resolution adopted Monday at a meeting of defense coordinators of nine cities in Hermosa Beach. Police Chief John Stroh, representing Torrance Civilian Defense units, approved the protest.

The resolution was presented at a joint meeting with defense chiefs representing the Los Angeles County Defense Council, the Office of Civilian Defense and the Southern California State Defense Council.

Cities represented by their respective civilian defense coordinators included the following: Redondo Beach, Hermosa Beach, Manhattan Beach, El Segundo, Torrance, Palos Verdes, Gardena, Inglewood and Hawthorne.

During the round table discussion of Civilian Defense problems at which the coordinators aired their grievances, effort was made to reach common ground of understanding.

A principal grievance aired by the coordinators was the asserted tendency on the part of their superiors in OCD and other offices to clutter and confuse the vital undertakings of their offices by the introduction of multiple extracurricular duties not pertaining to the protective phases of Civilian Defense, namely house-to-house surveys, selling of stamps and miscellaneous other odds and ends of detail and assignments which they do not believe should be shifted to their offices.

Asserted conflict of orders coming from the various regional headquarters also was criticized by the coordinators. All of these factors, the resolution points out, have the effect of hampering vital Civilian Defense work.

## City Would Hide Madrid 'Gash'

Another move was made by city council Tuesday night to improve the unsightly gash thru Madrid ave. which is the Santa Fe right-of-way. The municipal board adopted a suggestion of Mrs. Renee Bartlett, 2325 Sonoma ave., that the railroad be asked to plant a high hedge on each side of the right-of-way to somewhat conceal the rail line. City Attorney McCall was instructed to write the Santa Fe recommending that the planting be done as soon as possible.

## Six Jap Aliens Interned for Conspiracy

Six Japanese aliens have been evacuated from the Santa Anita Assembly Center and have been placed in the custody of internment camp authorities. Ultimately they will appear before hearing boards for the purpose of determining whether they shall be interned for the duration of the war.

In addition to the six aliens, five Japanese American citizens, also residents of the center, are being interrogated by the F. B. I. preparatory to prosecution in the Federal court for violation of Federal statutes. The apprehension and prosecution of these persons of Japanese ancestry were made at the request of Lieut. Gen. J. L. DeWitt, commanding Western Defense Command and Fourth Army.

Authority for the internment of these aliens, and the prosecution of the citizens—the first action of its kind since the Japanese were evacuated from Military Area No. 1 on the Pacific Coast—is based on a telegram signed by Attorney General Biddle, dated May 27, 1942, in which United States district attorneys in the eight states comprising the Western Defense Command, are authorized to apprehend, and intern, or prosecute, on request of the commanding general of this area, those Japanese who for cause should not be allowed to remain in the Assembly Centers, or any other alien, or citizen, in the commanding general's area of command.

**Loyal to Japan**  
Briefly, the story behind the internment proceedings is: Military orders forbid secret meetings within the centers. They also forbid the use of any but the English language in meetings within the centers. Several days ago, in direct violation of these orders, such a meeting was held. Morey Kazuchi Asanuma, 42, and born in Japan, was chairman of the gathering. The meeting was conducted in the Japanese language. No secretary was present. No minutes were kept. Within a few hours all those who had been in attendance were in custody; and as one of them, in talking to the FBI, said about the aliens in attendance:

"You see, the people will always remain Japanese. Inasmuch as they are deprived of citizenship in the United States, they will always be citizens of Japan. In one sense of the word they are prisoners of war and, as such, their loyalty will be with Japan."

The six aliens evacuated are: Tozobey Sashihara, 42, recently elected mayor of the self-government group in the center, and organizer of the Japanese Y. M. C. A. in Los Angeles; Shuji Matsui, 47; Torimatsu Sato, 59; Frank Juki Yoshimoto, 41; Morio Sera, 42, and Morey Asanumi, 42. The five Japanese who are citizens are: Shuji Fujii, 32; Masaru Kuwada, 41; Ernest Wakayama, 46; Jotero Ban, 42, and Dr. Kaname Takahashi, 38.
